

Hausfeld hosts launch of LAW's Women Lawyer's Network: Working in Conflict

Related Lawyers: **Ingrid Gubbay**

Related Practice Areas: **Civil and Human Rights**

Hausfeld in collaboration with Legal Action Worldwide (LAW) will be hosting a lunch time event bringing together UK based female lawyers to introduce the first international women lawyers' network.

In 2014, LAW established Women Lawyers' Network: Working in Conflict in order to address the global issue of increasing access to justice for women and children. The aim of the network is to establish and facilitate connections between women lawyers from the Americas, the Middle East, Europe, Asia and Africa. The network supports and empowers women lawyers working in conflict areas so that they can more readily address the challenges before them and at the same time provides international women lawyers with on-the-ground knowledge and direct insights of their experiences.

This event is part of LAW's three day programme of creative lawyering through high level panel discussions, open events and closed roundtables. For more information please [click here](#).
