Legal 500 UK which published its latest rankings on 29th October 2018, continues to recognise Hausfeld as a leading law firm for dispute resolution. In particular its competition litigation, commercial litigation and banking litigation practices are singled out for commendation.

Whilst confirming our undisputed position as the leading claimant competition law firm in the UK, Legal 500's researchers also recognised that Hausfeld's *'commercial litigation team is growing in size and reputation'* and that Hausfeld is now a *'broader boutique commercial litigation practice that regularly litigates high-profile financial services disputes...'*

This shows the growth of the practice from 2015 when only our antitrust activity was singled out for praise.

No less than 10 lawyers receive individual mentions, of which two are recommended as Next Generation lawyers. *Superb, switched on, fantastic, deeply experienced* and *first-class* are just a handful of the accolades they receive.

We would like to take this opportunity to thank our clients and referees for their continued support.
